Experiment 4 : Install virtual and Hadoop environment

STUDENT NAME: Shweta Negi

UID: 25/SCA/MCAN/032

DATE OF PERFORMANCE: 11/09/2026

AIM/OVERVIEW OF THE PRACTICAL: Installation of VirtualBox and Hadoop Environment.

2. TASK TO BE DONE:

Step 1: Download VirtualBox

Visit the official VirtualBox website and download the installer compatible with your operating system. Install VirtualBox by following the on-screen instructions.

Step 2: Download Hadoop Environment

Download the Hadoop environment required for the practical. You can use a preconfigured Hadoop virtual machine or a compatible Hadoop installation package.

Step 3: Open VirtualBox

Launch Oracle VM VirtualBox from the Start menu or Applications folder.

Step 4: Import the Virtual Machine

If you are using a preconfigured Hadoop virtual machine, click File → Import Appliance. Select the downloaded .ova file and click Next.

Step 5: Configure Virtual Machine Settings

Review the virtual machine settings, including RAM, CPU, and storage. Allocate sufficient resources according to your computer's configuration and the requirements of the selected Hadoop environment.

Step 6: Import and Start the Virtual Machine

Click Import and wait for the virtual machine to be created. Once the process is complete, select the imported virtual machine and click Start.

Step 7: Log In to the Hadoop Environment

After the virtual machine starts, log in using the credentials provided with the virtual machine image.

Step 8: Verify the Hadoop Installation

Open the terminal and execute the following command to check the installed Hadoop version:

hadoop version

Step 9: Verify Hadoop Configuration

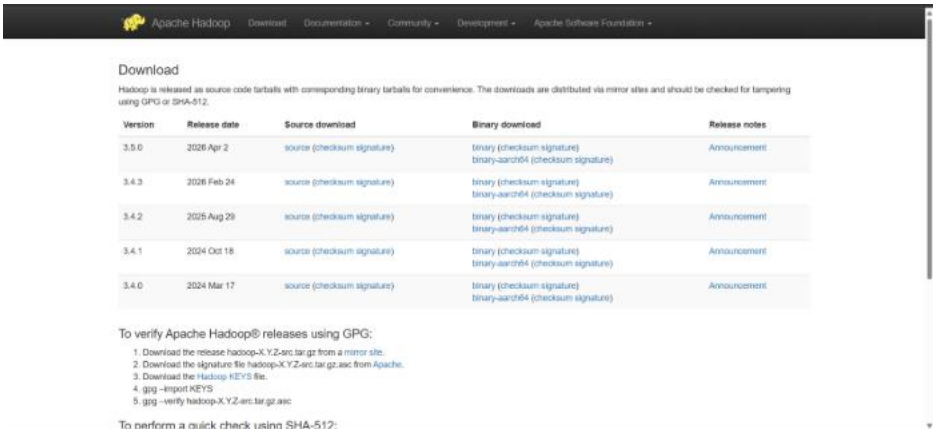

Execute the following command to check the Hadoop configuration directory:

hadoop classpath

Step 10: Complete the Setup

If the commands execute successfully, the Hadoop environment is accessible. The system is now ready for performing basic Hadoop and HDFS operations.

1. RESULT/OUTPUT/WRITING:

2. **LEARNING OUTCOME (WHAT I HAVE LEARNT):** I have learnt to install Hadoop and virtual box
